

Jan Jan Rakhe Dhyan – TB MukT Bharat Abhiyan 100-Day Campaign Conducted at Udmaru, Nubra

Nubra, July 25, 2026: The “Jan Jan Rakhe Dhyan – TB MukT Bharat Abhiyan” 100 Days Campaign was successfully conducted at Udmaru, Nubra, on 25/07/2026.

The campaign aimed to raise awareness about tuberculosis (TB), promote early detection, and ensure timely treatment in support of the vision of a TB-Free Nubra.

A key highlight of the campaign was the use of portable X-ray screening, which enabled on-the-spot examinations and the early detection of suspected TB cases. This initiative made screening more accessible, particularly for vulnerable populations residing in remote villages, and encouraged more individuals to come forward for testing.

The campaign received strong support from the Goba, whose active participation contributed significantly to its success. The initiative enhanced public awareness about TB, promoted timely health-seeking behaviour, and strengthened ongoing efforts towards the elimination of tuberculosis.

A total of 79 people participated in the campaign, including 27 males and 52 females. During the screening, 21 sputum samples were referred for CBNAAT testing for further diagnosis.

The successful conduct of the campaign marks another important step towards achieving the goal of a TB-Free Nubra through early diagnosis, timely treatment, and community participation.
