

## **Animal Husbandry Department Leh conducts awareness camps in Nubra**

Leh, 01 Mar, 2025 – The Department of Animal Husbandry, Leh, conducted a series of animal health awareness camps under the Centrally Sponsored Scheme (CSS) National Animal Disease Control Programme (NADCP) in villages Tiggarr, Skampuk, Parta and Terchey from February 25th to 27th, 2025.

Over 120 livestock breeders participated in the camps, which focused on crucial aspects of animal health management and disease control.

A primary emphasis was placed on the importance of timely and complete Foot-and-Mouth Disease (FMD) vaccination for cattle, as well as Brucellosis vaccination for female calves aged 4 to 8 months.

The camps also provided vital information on various zoonotic diseases, including Brucellosis, Tuberculosis (TB), Hydatidosis, and Rabies, and preventive measures to safeguard both animal and human health.
